TALENT DEVELOPMENT  
PROGRAM

SPECIALTY  
INSURANCE AGENCY

The two-year training program with our world-renowned coaching staff will allow students to develop professional skills, prepare for auditions and festivals, build dynamic act routines, and network with professional organizations such as Cirque du Soleil and other notable circus companies. Classes will run September to July. Professional Program students will focus in chosen disciplines and integrated cross-training within the five genres offered at CJ; Aerial, Acrobatics, Balance, Dance and Theater. Solo or partner acts will have one-on-one coach training, participation in ensemble and team acts is available in conjunction with our advanced youth program.

Students will undergo an evaluation period with program professionals in which a custom program will be created for each student to find the right fit for their talents. Students will train within their program plan, Mon-Fri from 12:00-4:00 P.M. Participants are able to sign up for 5 general fee classes within our advanced youth program, and perform in Circus Juventas productions when applicable.

The medical team at TRIA is partnering with Circus Juventas to provide specialized care to participants in the Professional Program. The most important asset to a professional athlete is their body. Working with performers, the medical team will focus on injury prevention and education, helping athletes achieve peak performance goals while reducing the risk of injury.

- ▶ Annual tuition of \$7,450
- ▶ A personalized program created to fit your needs
- ▶ Are you ready to take the leap? **APPLY NOW!**

The application process will include a video uploaded to youtube (if not current CJ student), a short written portion for you to detail your level of experience, past training programs, and what you hope to gain through our program, as well as an in-person audition. We will require written recommendations from coaches, and an interview with the directors. This is an application-only training program, all applicants may not be accepted into the program.
